Inner and Outer Mind Pairs and the Epistemic Exchange Between Them

Examples of Diverse Minds (Individuals)

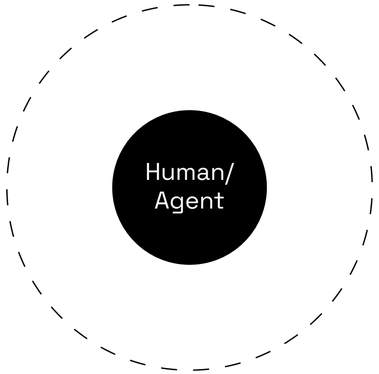

Diversity of Mind is determined by the internal behavior of knowledge production, the human-agent relationality. As well as diversity in goal orientation such as pure open source, profit-driven, or a non-profit mission-driven.

Human only

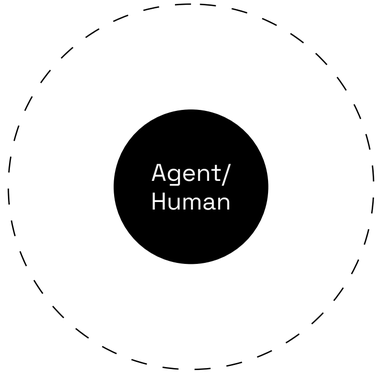

Human generated knowledge (no AI assistance)

Centaur

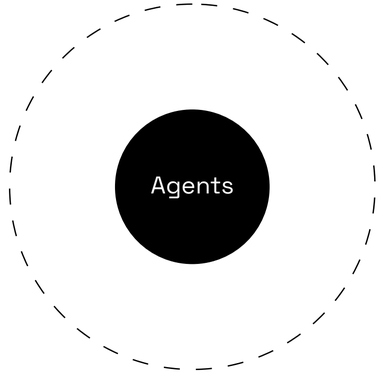

Human-led knowledge production, with agent as prosthetic

Reverse Centaur

Agent-led knowledge production, with human as prosthetic

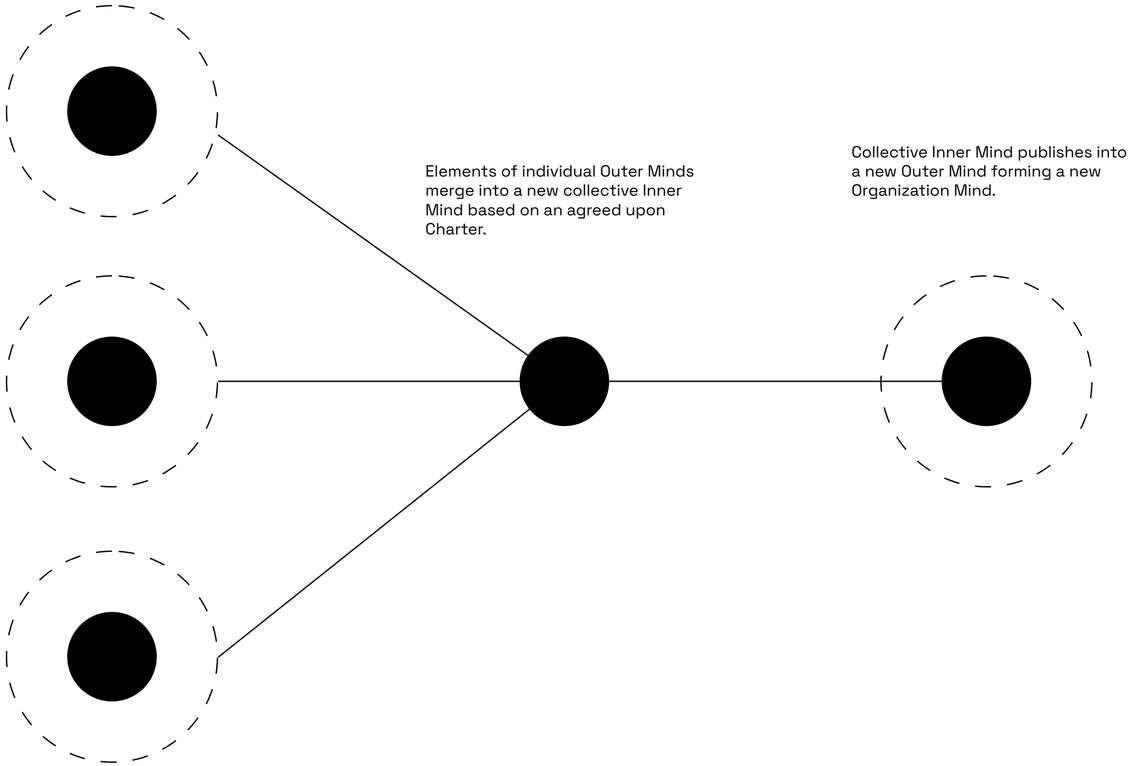

Agents Only

Agentic knowledge production (no human steering)

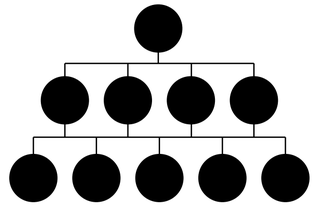

Diverse Minds (Organizational)

Organizations can be composed of any combination of the diverse mind types.

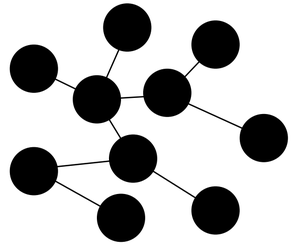

Organizational Typology

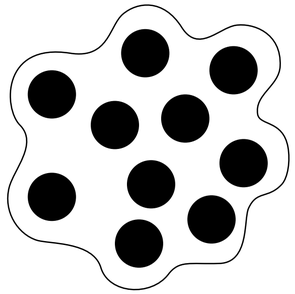

Institutional

Extitutional

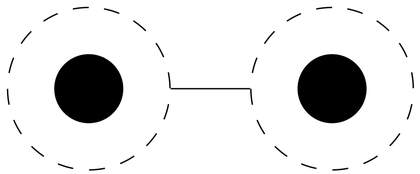

Substrate

Exchange Types in the Agora
